

Brett & Brianna

adoption profile

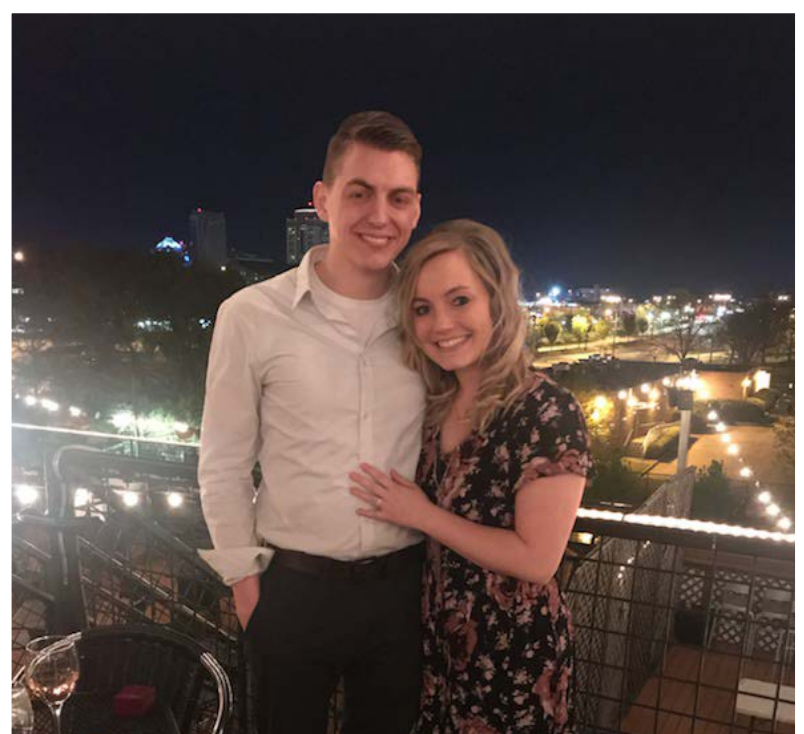

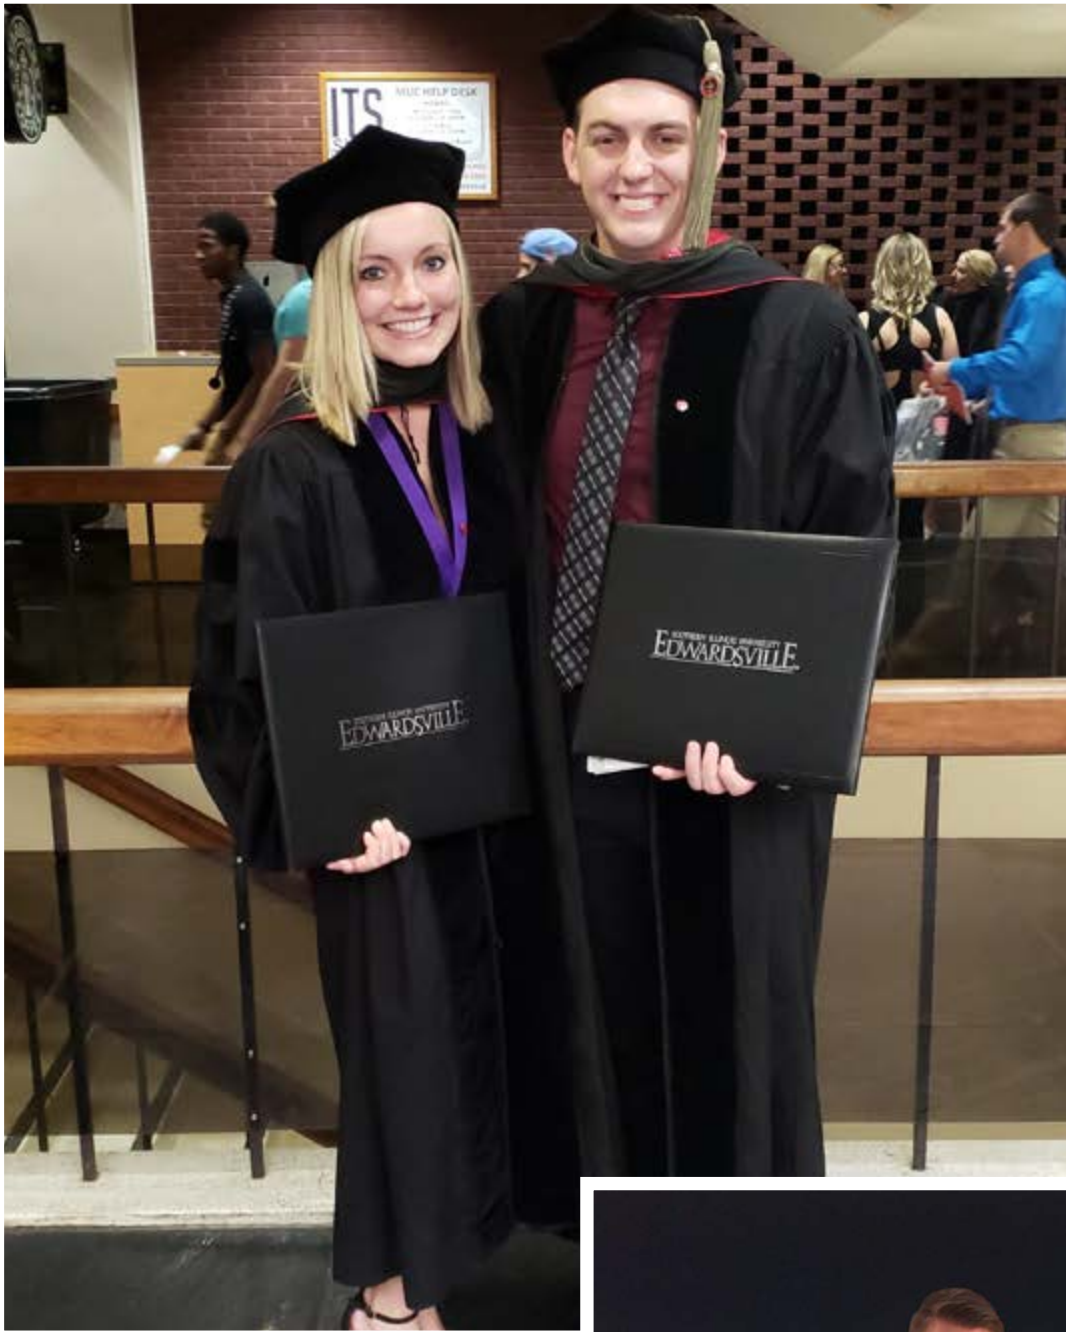

Dear Birthmother,

We are honored that you would consider us as prospective adoptive parents. We hope that you feel support and love during this difficult time in finding the best option for your precious baby. Your selflessness in choosing adoption for your baby gives us the opportunity to build a family.

Thank you again for taking the time to look at our profile book. Please feel free to reach out for more information about us. As you face this difficult decision, please know that you have our support and we would feel so blessed to meet you and your baby. We have so much love and respect for the journey you are on to help a family grow, and we wish you the best as you go through this decision.

With love,

Brett & Bri

our story

We met in pharmacy school at Southern Illinois University Edwardsville, and got married during the height of the pandemic in 2020. Following pharmacy residencies, which included a year spent apart, we moved to Cincinnati for our careers and have fallen in love with this area. We have established our home here and have been ready to start a family for the last few years.

Unfortunately, we have been dealing with infertility and have had repeated failures with treatments, including IVF. We discovered we are both genetic carriers for cystic fibrosis and are no longer trying to conceive because of this. We are fortunate to have loving, supportive families who have been there for us through every step of our lives.

We are both clinical pharmacists. Bri is a clinical specialist in a neonatal intensive care unit and Brett works around orthopedic surgery to help manage pain after surgery. Outside of work, we enjoy traveling to new areas, visiting family, any outdoor activities, cooking, and spending time with our pets. We have a dog and two cats who are very friendly. We have a lot of love to give and look forward to meeting the person who will become part of our family, giving us the biggest gift we could ask for!

I grew up in a small town with a twin brother and an older brother, and we continue to be close despite living in different cities. My twin brother has two young children and I cherish being an aunt to them. I was lucky enough to grow up with horses and frequently went trail riding with my family. I love animals, outdoor activities, and spending time with family. My favorite pastimes are trying new restaurants with Brett, reading, and going on hikes with our dog, Dot.

OCCUPATION:

NICU Clinical Pharmacy Specialist

FAVORITE MOVIE/BOOK:

Movie: Beauty and the Beast (loved this classic ever since I was little)

Book: Throne of Glass series (though I love to read, so this is always changing)

FAVORITE PLACE:

My house- I love spending time at home with Brett and our pets

WHAT INSPIRES ME:

There are so many people who inspire me day to day. My coworkers save babies every day and push me out of my comfort zone. My parents have been my inspiration since as long as I can remember. They work tirelessly to ensure my siblings and I are happy and healthy, and I hope to one day be that same inspiration to our future child.

HOW FRIENDS AND FAMILY DESCRIBE ME:

I am a hardworker and optimistic (sometimes to a fault)

My adorable baby nephew and me (top left)

I enjoy running (in moderation) and ran my 1st (and maybe last) half-marathon (top right)

Hiking in North Carolina- we love spending time outdoors (bottom left)

OCCUPATION:

Clinical Pharmacist - Pain and Palliative Care

FAVORITE BOOK:

Frank Herbert's Dune series

FAVORITE PLACE:

Jamaica or any place with friends, family, and nice weather

WHAT INSPIRES ME:

I love music, teaching, helping people, and often find inspiration in the simple things

HOW FRIENDS AND FAMILY DESCRIBE ME:

I love to laugh and make others laugh. I value honesty and loyalty - and found my perfect partner in Bri.

I grew up in a rural area with two younger siblings, and loved sports, music, and hunting growing up. I have played guitar since I was 12 years old, and have developed a love for cooking over the years. I love having new adventures with Bri and our dog, Dot. I have been fortunate enough to have friends from many different backgrounds and walks of life, and have been with Bri for over eight years now. I love kids and have always been a fun older cousin and uncle in my large family.

our \ home \

We live in a great and safe neighborhood with other families who have younger children. We love walking our dog all over the neighborhood and enjoy spending summers at the community pool. We also enjoy sitting on the back porch and enjoying evenings outside every chance we get. We look forward to the simple things like playing catch with our future child in the yard and watching them play.

meet our

\ family \ and friends

We are very close with our family and value our time with them. We spend all holidays together and have started a Thanksgiving tradition of hosting at our house and making a feast for all. We enjoy making memories any chance we have, attending sports events, going fishing, and simply enjoying a night around a fire.

Our family eagerly awaits new additions and has plenty of love to shower a child with. Bri's mother is a retired nurse and they plan to move closer to us when we have a child. Brett's parents own a small business and enjoy life in the country where they can enjoy nature and the dogs and future grandkids can run free.

We eagerly await creating new traditions with a child and the important things like family dinner and enjoying time with our friends and their families. From everything like recreational sports, to checking homework on a weeknight, we cannot wait to experience it all with a child we love dearly.

our sincere

\ thank you \

We sincerely thank you for taking the time to look through our book and learn about us and our family. We hope every day that we are fortunate enough to meet our future child and continue our journey in growing our family. Please do not hesitate to reach out if there are any questions we can answer or if we can provide any additional information.

with gratitude,

Brett and Bri
